## Un-packaging

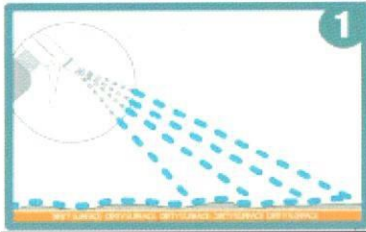

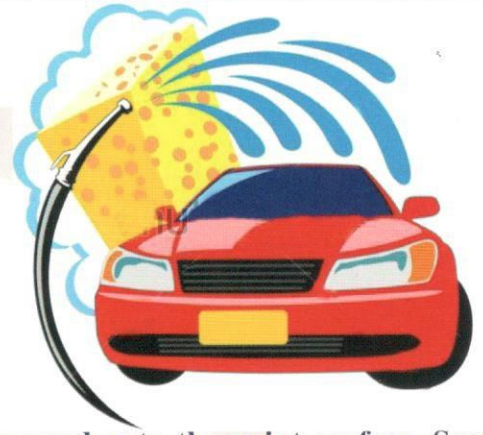

We provide exceptional un-packaging service as the customer needs all items be unpacked and arranged in a specified manner in the new location

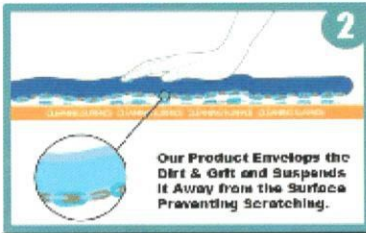

# SENSIBLE CAR WASH

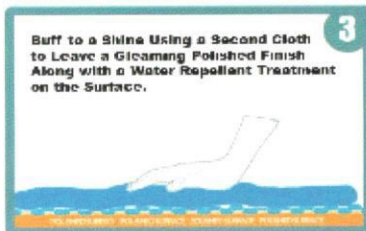

*every drop count*

- 1** Our Sensible -friendly product is sprayed onto the paint surface. Special organic polymers dissolve the dirt particles on contact, lifting them from the paint surface to protect from scratching.

- 2** Once the dirt is encapsulated within the product, we gently wipe off the the residue with a micro-fiber cloth leaving behind a fine layer of protective wax

- 3** We then buff the surface to a shine using a second micro-fiber towel. The result is a beautiful shiny finish and a highly protective glaze making it harder for environmental fallout, hard water spots and any other foreign debris to stick to it.
